Who We Are

Your Trusted IT Company in India

Welcome to Ivoniz Pvt Ltd, your destination for all your IT needs in India. As the leading IT company based in Calicut, Kerala, we are dedicated to giving you a wide range of services including website development, app development, digital marketing, search engine optimization services, media works, branding, and graphic designing. Our dedication to quality and technology sets us apart, making Ivoniz Pvt Ltd your suitable IT companion. Ivoniz Pvt Ltd proudly holds the difference of being a leading IT company in India, providing exceptional knowledge and extraordinary services. Our experienced experts are committed to providing top remedies that help to meet your special requirements. Whether you require a visually striking website to target your market or a seamless app to expand your market reach, Ivoniz Pvt Ltd has the experience to surpass your expectations. Our dedication to supplying exceptional results makes us the trusted IT company in India.

About Ivoniz

A bunch of technology and media brains did not hesitate to dream big. Because they realized that big dreams are launch pads for great visions. Converting Calicut to an IT and Media hub of international stature is no small step. Ivoniz Pvt Ltd, being conceived by a group of technologists and industrialists, is the latest and probably the biggest venture from the region to provide top-notch technology solutions globally. We are converting Calicut into an IT and Media hub of international stature – “Local is the new International” – and will stamp this vibrant city, sandwiched by metro hubs, into its rightful position in global recognition.

Vision

It is a leap and a huge one at that. The new dawn of 2025 with a marking space for 25 individuals has witnessed an IT and Media hub with the first phase launched at Calicut in November 2024. The second phase launched at Calicut as the Head Office in February 2025 created an ideal working space for more than 45 selected IT talents, taking the total capacity to 70. Our dream was not limited by boundaries.

We have further expansion plans that will house the best brains in the world, converting equations of masterly vision to reality. They will create galaxies of possibilities for technological advancement and bring in investment to the land, and will be at their creative best from this space.

Services we offer:

Web Development

Transforming your ideas into outstanding websites that make a lasting impact. Our web development expertise is your pathway to online success.

Mobile App Development

Enhance your online presence with our expertise in Web and Mobile App Development, Web Design, and UI/UX Excellence. We turn your ideas into digital magic.

Our Works

MYAICARD

MyAICard is a smart NFC-enabled digital business card designed to simplify and modernize the way professionals connect. With just a tap, users can instantly share their contact details, social links, and portfolios — eliminating the need for traditional paper cards

Key Features:

1. Instant NFC Sharing

Share your contact details, social links, and portfolio instantly with just a single tap — no app or QR code needed.

2. Smart Digital Profile

Customize and update your digital card anytime with links, images, and personal branding that reflect your professional identity.

3. Dual Experience (Digital + Physical)

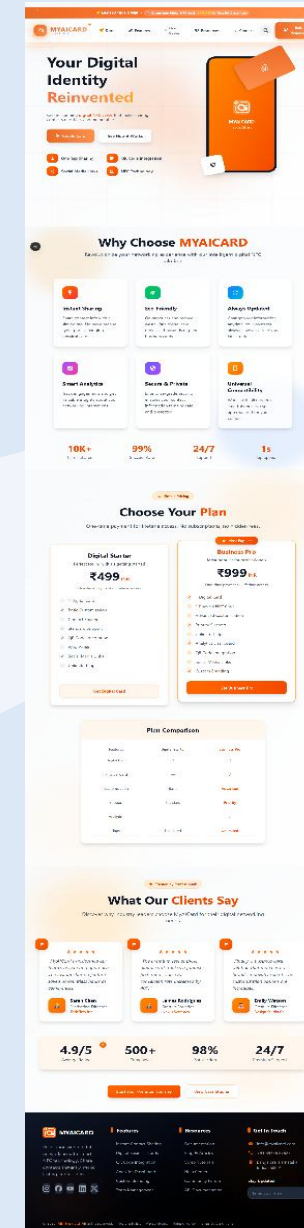

Get both a sleek physical NFC card and a digital version, combining the convenience of technology with a premium professional touch.

Unique Value Proposition:

MyAICard empowers professionals to connect smarter and faster through NFC-enabled digital business cards — combining innovation, personalization, and sustainability to make networking effortless and impactful.

Market Potential:

The global demand for digital business solutions is rapidly growing as professionals and organizations shift toward contactless and eco-friendly networking. The **digital business card market** is projected to reach **over USD 400 million by 2030**, driven by advancements in NFC technology, smartphone adoption, and sustainability awareness.

Our Works

Ecommerce Mobile App

The Khadi Ecommerce Mobile App is a dedicated platform designed to promote and sell authentic Khadi products, celebrating India's heritage and empowering local artisans. It serves as a bridge between consumers and a wide array of high-quality Khadi goods, ranging from clothing and accessories to home decor items.

Key Features:

1. Authentic Collection

Curates a diverse range of genuine Clothing products sourced directly from artisans and Clothing across India.

2. User-Friendly Interface

Offers an intuitive and seamless browsing experience, allowing users to explore, select, and purchase Clothing items effortlessly.

3. Vendor Empowerment

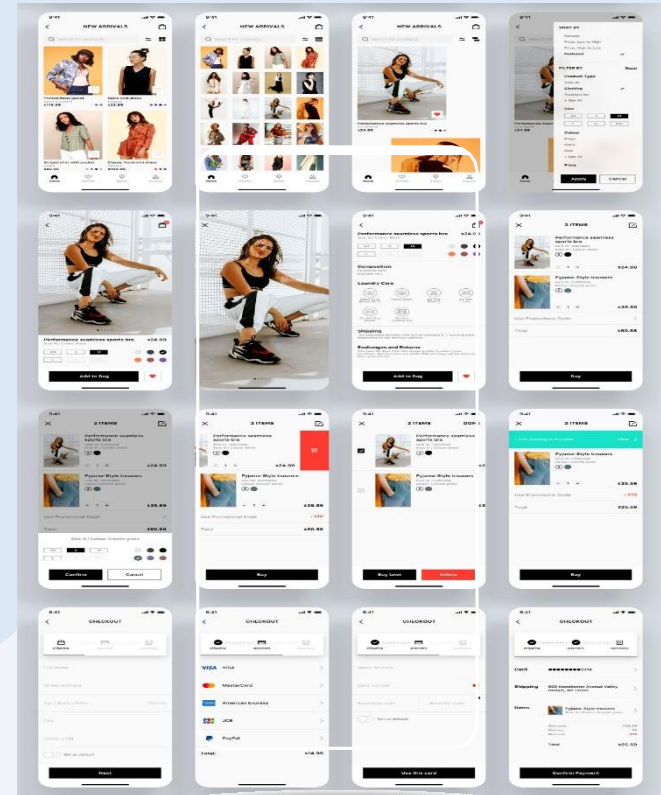

Provides a platform for Clothing artisans and cooperatives to showcase their craftsmanship, enabling direct sales and fair compensation for their products.

4. Educational Content

Integrates educational content about Khadi's history, its significance, and the artisanal process, fostering awareness and appreciation among users.

5. Secure Transactions

Ensures secure and hassle-free payment gateways, guaranteeing safe transactions for buyers and sellers alike.

Unique Value Proposition:

Our Clothing Store App brings fashion to your fingertips — offering a seamless shopping experience with personalized recommendations, exclusive deals, and fast, secure checkout. Discover the latest trends, anytime, anywhere.

Market Potential:

The global fashion and apparel industry is one of the fastest-growing markets, with mobile commerce playing a major role in shaping consumer behavior. As more shoppers prefer **mobile-first experiences**, clothing apps are becoming a primary channel for discovering, comparing, and purchasing fashion items.

Our Works

Kupa Food Delivery Mobile App

Kupa is a smart and reliable food delivery mobile app designed to connect customers with their favorite local restaurants and food outlets. The app offers a seamless experience from browsing menus to real-time order tracking and secure digital payments.

Key Features:

1. Real-Time Order Tracking

Track your order from the kitchen to your doorstep with live GPS updates for complete transparency and convenience.

2. Personalized Recommendations

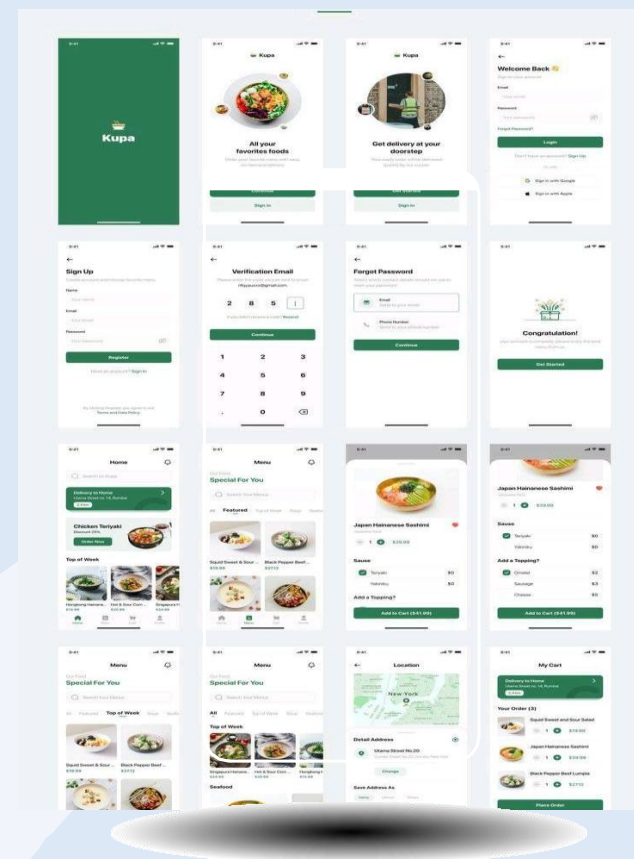

Get food suggestions based on your taste preferences, order history, and location — powered by smart AI algorithms.

3. Multiple Payment Options

Enjoy a smooth checkout experience with secure digital payments, including UPI, debit/credit cards, and wallet integrations.

4. Restaurant Partner Dashboard

A dedicated dashboard for restaurant owners to manage menus, track orders, and analyze sales performance in real time.

Unique Value Proposition:

Kupa delivers more than just food — it delivers convenience, speed, and trust. With a user-friendly interface, real-time tracking, and personalized recommendations, Kupa creates a seamless connection between customers and local restaurants.

Market Potential:

The global **food delivery market** has experienced exponential growth with the rise of mobile technology and changing consumer lifestyles. By 2030, the online food delivery industry is projected to exceed **USD 500 billion**, driven by increasing smartphone penetration, digital payment adoption, and the growing demand for convenience.

Our Works

Bank Mobile Application

The Bank Mobile Application is a secure and user-friendly platform designed to simplify everyday banking. It enables customers to manage their finances anytime, anywhere — from checking account balances and transferring funds to paying bills and tracking transactions in real time.

Key Features:

1. Secure Transactions

Perform fund transfers, bill payments, and account management with advanced encryption and biometric authentication for maximum security.

2. Real-Time Account Monitoring

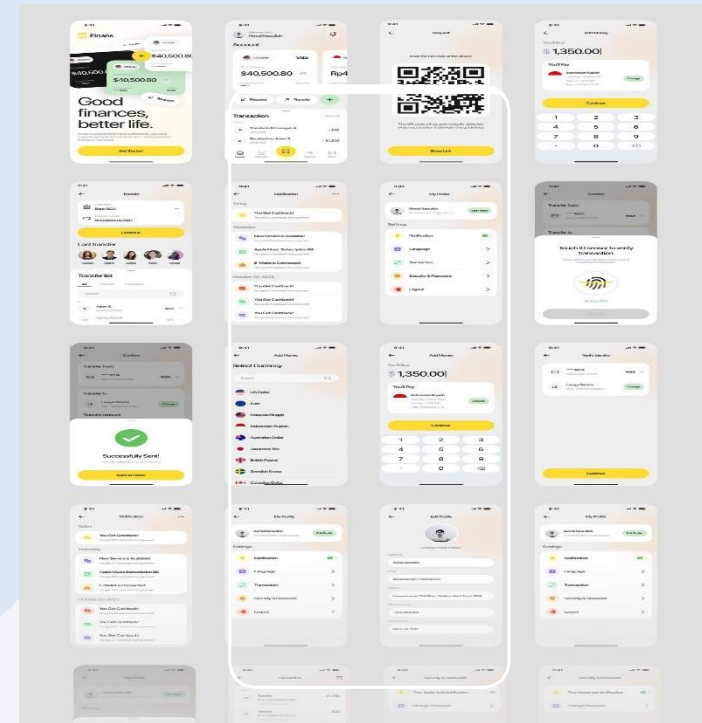

Check account balances, view transaction history, and receive instant notifications for all account activities.

3. Personalized Banking Insights

Get smart spending analysis, budget tracking, and financial recommendations tailored to your account activity.

4. Convenient Services

Access a wide range of banking services including loan applications, credit card management, and branch/ATM locator — all within the app.

Unique Value Proposition:

Our Bank Mobile Application empowers customers to **manage their finances anytime, anywhere**, combining convenience, security, and personalization in a single platform. With real-time transaction tracking, intelligent financial insights, and robust security features like biometric authentication and encryption, the app makes banking **smarter, faster, and safer**.

Market Potential:

The global mobile banking market is experiencing rapid growth, driven by increasing smartphone adoption, internet penetration, and the shift toward digital financial services. By 2030, the mobile banking industry is projected to surpass **USD 1 trillion**, as consumers increasingly prefer **convenient, secure, and real-time banking solutions**.

Our Works

Charity Mobile Application

The Charity Mobile Application is a user-friendly platform designed to **connect donors with causes** and charitable organizations seamlessly. It allows users to discover, support, and track donations to various social initiatives, ranging from education and healthcare to disaster relief and community development.

Key Features:

1. Secure Donations

Make contributions safely with multiple payment options, including credit/debit cards, UPI, and digital wallets, all protected with advanced security measures.

2. Real-Time Impact Tracking

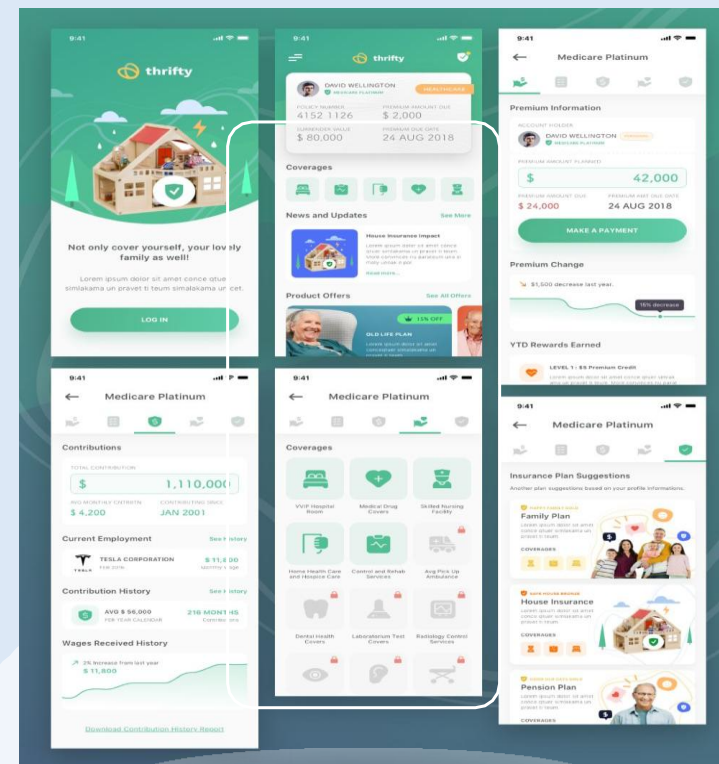

Track your donations and see how your contributions are being used through updates, photos, and reports from the organizations.

4. Cause Discovery & Personalized Suggestions

Explore a wide range of charitable causes and receive recommendations based on your interests, location, and giving history.

5. Campaign & Event Management

Participate in fundraising campaigns, charity events, and volunteer opportunities, all organized and managed within the app.

Unique Value Proposition:

The global online giving and charity sector is rapidly expanding, driven by the rise of **mobile technology, digital payments, and social awareness**. By 2030, the digital donation market is expected to surpass **USD 15 billion**, with more donors preferring convenient, transparent, and trackable online giving platforms.

Market Potential:

Our Charity Mobile Application makes giving **simple, secure, and impactful**. It connects donors with causes they care about, providing **real-time tracking, transparent reporting, and personalized recommendations** to maximize the impact of every contribution.

Our Works

EduSpark Mobile Application

The Learning App is an intuitive and interactive platform designed to make education accessible, engaging, and effective for learners of all ages. It offers a wide range of **courses, tutorials, quizzes, and practice exercises** across multiple subjects and skill levels.

Key Features:

1. Personalized Learning Paths

Tailor courses and study plans based on individual strengths, interests, and progress to maximize learning efficiency.

2. Interactive Lessons & Quizzes

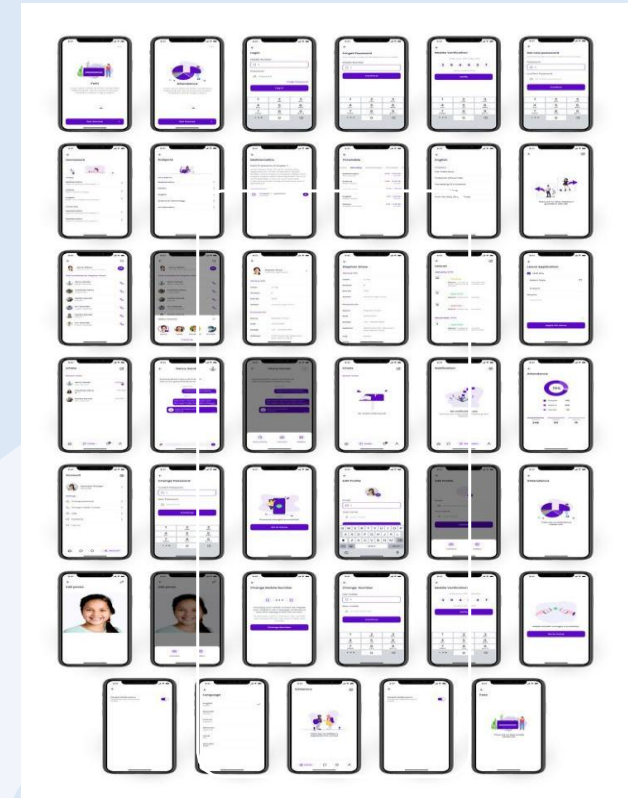

Engage users with videos, simulations, quizzes, and exercises that make learning active and fun.

Unique Value Proposition:

Our Learning App transforms education into a **personalized, engaging, and results-driven experience**. With interactive lessons, quizzes, and progress tracking, learners can study at their own pace while receiving tailored recommendations to strengthen their skills.

Market Potential:

The global e-learning market is experiencing rapid growth, driven by increasing internet penetration, smartphone adoption, and the demand for flexible, accessible education. By 2030, the online learning industry is projected to surpass **USD 500 billion**, with mobile learning apps playing a key role in shaping the future of education.

Our Works

Recruiters Portal

T

Key Features:

1. Student Profile Management

Enables students to log in, maintain, and update their profiles, including academic records, achievements, and extracurricular activities.

2. Teacher Approval System

Provides a verification process where teachers review and approve student portfolios, ensuring authenticity and reliability of the shared information.

3. Recruiter Access

Allows recruiters to access a separate login interface, providing them with a comprehensive student list. Recruiters can utilize filtering options to streamline candidate searches based on specific criteria.

4. Shortlisting Functionality

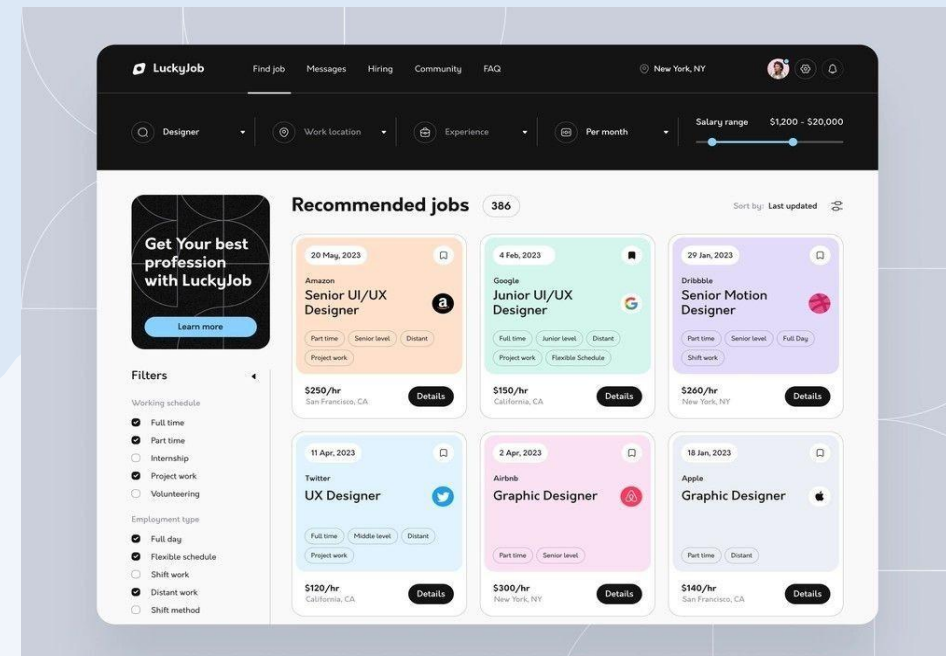

Empowers recruiters to shortlist candidates based on their requirements, enabling efficient and targeted candidate selection.

Unique Value Proposition:

The Recruiters Portal streamlines the student recruitment process by offering a centralized platform for student profiles and recruiter interactions. Its meticulous approval system ensures the credibility of student information, facilitating more informed recruiting decisions.

Market Potential:

In an increasingly competitive academic and employment landscape, there's a growing demand for platforms that facilitate efficient and reliable student recruitment. The Recruiters Portal caters to this demand, offering an organized and verified repository of student profiles.

Our Works

Duomix Flex Printing Admin Portal

The Recruiters Portal is a comprehensive web-based application developed specifically for **Amala College**. It serves as a centralized platform where students can log in to update their profiles, academic achievements, and extracurricular activities. Each student portfolio is reviewed and approved by teachers to ensure accuracy, authenticity, and credibility.

Key Features:

1. Role-Based Access

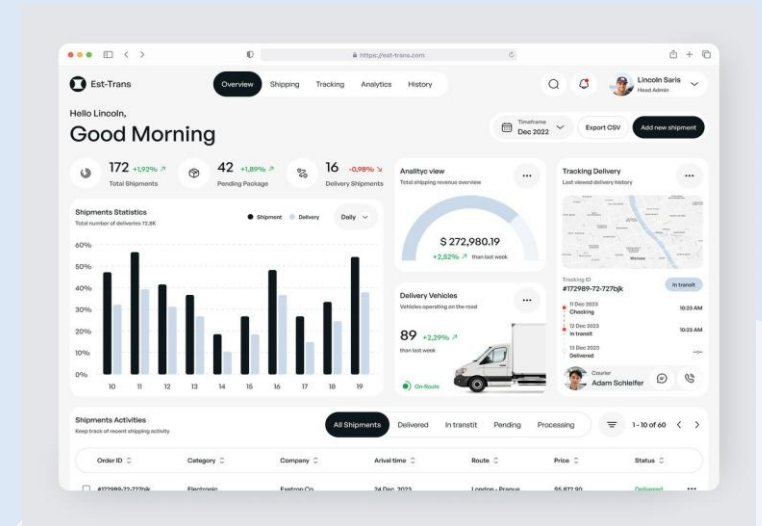

Facilitates seamless collaboration among administrators, designers, and printers by providing role-based access controls, ensuring that each user has the necessary privileges based on their role within the printing process.

2. Order Management

Offers a sophisticated system for managing orders, enabling users to create, track, and process printing orders efficiently. It streamlines the workflow, ensuring timely project completion.

3. Reporting Tools

Provides robust reporting features offering insights into operational metrics like order volume, turnaround times, resource utilization, and other key performance indicators, aiding strategic decision-making.

Unique Value Proposition:

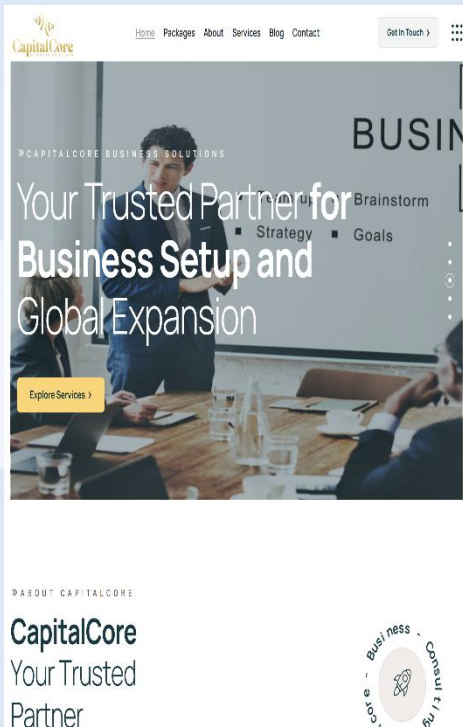

The Duomix Flex Printing Admin Portal stands as a pivotal tool for controlling and optimizing the operational efficiency of a printing company. Its user-friendly interface, role-based access, and comprehensive order management streamline operations, fostering productivity and reliability.

Market Potential:

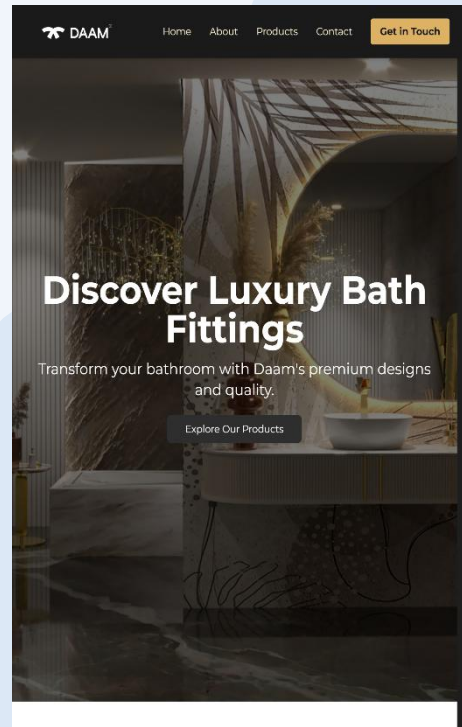

Operational efficiency is crucial in the competitive printing industry. The Duomix Flex Printing Admin Portal addresses this need, offering a solution that streamlines operations and enhances collaboration, fulfilling a critical requirement in the printing market.
